Character Building program for (PAUD) preschool teachers in South Jakarta

With the 2013-14 school year coming to an end, it has been an opportune time to visit some of the (PAUD) preschools in the area to deliver **STEPS** Character Building curriculum sets for the coming new school year. These sets were sponsored by several individuals with a heart to see these young lives influenced in a positive way, making their future brighter. Sharon delivered the **STEPS** Character Building Curriculum sets to 5 schools in southern **Jakarta** area during June; schools ranging from (PAUD) preschools to a school specializing in teaching hyperactive children of lower income families.

Activities at PAZKI (Padepokan Zammi Karina Indonesia) Center for Street Children in Depok

FCI visited PAZKI, a center for street children in **Depok**. These children range from age 4 all the way up through older teen age. We presented our "Fit To Win" video which teaches healthy diet and exercise. We followed the video with a chart for each student to fill in for a week. With this they will chart a healthy daily diet as well as daily exercise. Each of the children took the assignment seriously and filled in what they could for that day and were encouraged to keep track for the rest of the week to build good habits. Thanks to our generous sponsor, we enjoyed a healthy Indonesian meal together with all the children and the staff. They were also very thankful to receive a large gift to cover the cost of final exams for 13 teenagers.
